

Kansas State Fair 4-H Entomology Exhibitors

The Kansas 4-H Entomology Project group needs photos from time to time to use to provide examples of insect specimens, pinning techniques, display techniques, identification guidelines etc. These photos may be used by project leaders at project meetings, in project instructional materials, or judging guideline materials. Therefore we are asking all State Fair entomology exhibitors to complete the following Entomology Photo Release Form so that we might share your specimens and collections with others.

PLEASE TAPE THE FOLOWING TO ENTRY TAG OF YOUR STATE FAIR EXHIBIT

Kansas 4-H Entomology Photo Release Form

My specimens may be photographed for use by K-State Research Extension and the Department of 4-H Youth Development.

Yes _____ No _____
